FOR HOME SCHOOLING INSTRUCTION
SUPPLEMENTAL EDUCATIONAL MATERIALS FOR THE CLASSROOM

Embark on a unique and whimsical safari adventure through the alphabet.

This fun and interactive approach, using creative alliteration and detailed illustrations, entertains and educates young children and early readers about real animals A-Z.

Readers gain insight into the characteristics, habitats, diets, behavior, and families of both familiar and exotic animals. This imaginative adventure provides boundless entertainment as children learn new animal-inspired vocabulary with definitions and pronunciation.

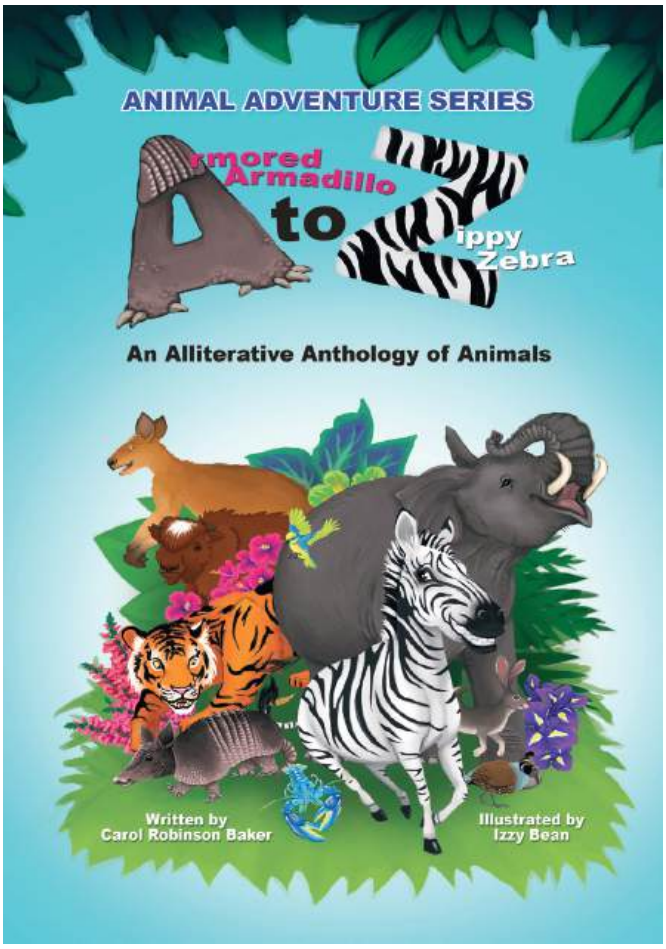
Play detective with the bonus "I Spy" feature in each illustration and look for objects that begin with the same letter. How many can you find?

Includes:

- **Glossary of terms to expand early reader vocabulary**
- **Educational Applications for use in the home schooling and classroom environments.**
- **Great for Children's time in local libraries.**

"Carol Robinson Baker's first book in the A-Z Animal Adventure Series is a delightful collection of delectable words and engaging pictures. I can imagine the joy I would have had chanting each animal's alliterative phrase with my daughters, spending time talking about the meaning within each one, then searching for the additional hidden alliterative words on each page. My "teacher brain" is flooded with images of graphic organizers and little personal dictionaries inspired by this clever alphabet/ vocabulary book."

- Kay Leary, Elementary Educator and Parent



7x10 64 pages Full color illustrations
Print and ebook formats

"An incredible tool for any Speech Language Pathologist! Each alliteration and illustration gives multiple opportunities for expanding speech, language, and listening skills. Carol Baker's educational applications are beautifully aligned for developing SLP and Teacher goals. It's also a great addition to your family library!"

- Debbie Hagar, SLP/ Deaf Ed. Teacher/ Parent Advisor
